Hello! This year I quit my job and start studying at the SoyHenry bootcamp to dedicate myself to living what I love to do ❤️. The knowledge acquired in web development, complemented by my previous experience as an employee at McDonald's, makes me stand out as a developer with communication and social skills that allow me to adapt to work in a team successfully and have a customer satisfaction-oriented approach.

As a developer I have experience implementing the following stack of technologies: React, Express, Node, PostgreSQL, PostCSS and TypeScript as a language among others...

I am especially passionate about everything related to Front-End and UI/UX.

Experience
